The Style Councillors are the ultimate tribute to **The Style Council**.

With Swirling Hammond Organ and a classic horn section, **The Style Councillors** are as close as it gets to actually being there.

They will take you right back to the beginning for a trip through one of **Paul Weller's** arguably best periods as a songwriter.

Formed in Brentwood, Essex in late 2013 by long time PW fans **Darren** and **Steve** after a random social media post asked 'why are there no **Style Council** tribute acts around?'

The band quickly recruited **Rob** and **Craig** on Bass guitar and Drums respectively they set about putting the show together before bringing in **Helen** on vocals and **Keith** on Keyboards.

Once the set was finalised the band line-up was completed by the addition of ex **Bad Manners** brass section **Trevor**, **Tony** & **Dave**. In a relatively short space of time a sizable and loyal following formed with the band playing to full houses up and down the country – notably including London's 100 club and The Jazz Café.

The word spread to the extent that notable faces seen at recent shows have included **Nicky Weller**, **Steve Parish**, **Gary Crowley**, ex **Style Council** members **Steve Sidelnyk**, **Anthony Harty** & **Tracie Young**, **Iain Munn** – Author of **TSC's** Biography '**Mr Cools Dream**' & **Chris Watson** of the **Moons**, all of whom are massive **Style Council** fans.
